

## ERIC ROUGEMOND APPOINTED CEO OF LABORATOIRE AGUETTANT

Eric Rougemond has been appointed Chief Executive Officer (CEO) of Laboratoire Aguettant.

Eric, 43 years old, is a Medical Doctor specialist in medical biology.

He has extensive industry expertise in life science enterprises in clinical development, market access, marketing & sales as well as business development.

Previously Eric was Vice President in charge of some European countries and International territories at EUSA Pharma which was acquired by Jazz Pharmaceuticals in mid-2012. He was before this General Manager France at EUSA Pharma.

Prior to joining EUSA Eric was Medical Director in charge of medical affairs and marketing at OPI, a French biopharmaceutical company dedicated to rare and severe diseases, and previously worked for Merck KGaA as Medical Director in charge of medical and regulatory affairs.

Eric Rougemond's mission is to pursue Aguettant's expansion on its existing strengths and develop the company in the new directions, especially biotechnology, that will ensure future growth.

### **About Aguettant**

- Family-owned pharmaceutical company based in Lyon, France
- 480 employees
- Sales over € 85 M over the past 12 months, of which more than 20% abroad
- 3 development axis:
  - designing and industrialising innovative drug delivery systems for enhanced security in emergency medicine,
  - offering a range of essential micro-nutrients capable of preventing and curing critical deficiencies,
  - taking care of patients suffering from severe symptoms of Parkinson's disease.
- Main project in progress: building a new R&D and manufacturing unit with the prospect of boosting innovation capabilities and enhancing international growth.
